2012

Built Bluetooth design-house, do business with Notebook-Lenovo.

2010

Start business with Car Faurecia, Skypine, and other local cars.

2008

Design-win TV/blue-ray DVD customer: TCL, Skyworth, MTC, KTC.

2006

Fbetter founded in 2006, is a dedicated Authorized Electronic Component Distributor and a solutions provider.

We provide competitive one-stop software and hardware design and component sales services.

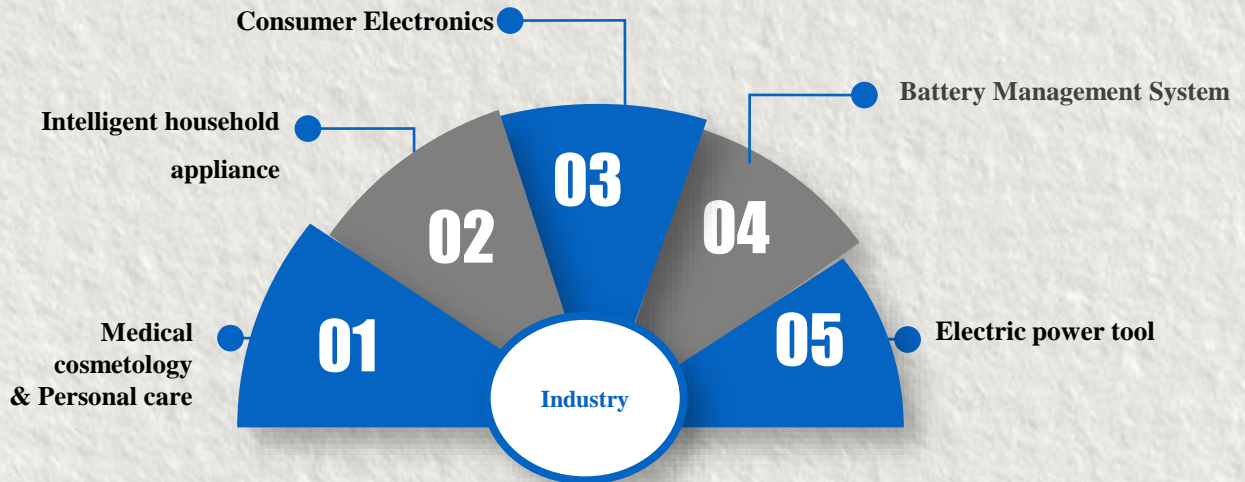

※ Set up sales offices in Shenzhen, Shanghai, Hong Kong, India

※ Providing innovative technology and product solutions for more than 800 companies.

※ 50+ engineers, include Software, hardware

※ Over 15 years experience in this field

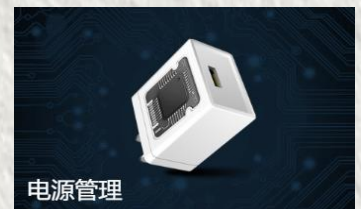

※ Over 1500 m² warehouse and 100KK stock

MCU

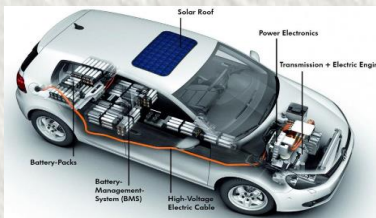

Overcurrent/Voltage Protector

Power IC

Analog IC

MOSFET

MEMS

The products we supply including:

Active Components: MCU, Power management chips (DC-DC,LDO, BMS IC etc.), Sensor, Gyroscope, OPA products, etc.

Passive Components: Protective components(overvoltage protection -TVS, ESD Suppressor; Overcurrent protection -Fuse, PPTC), Microphone, MOSFET, Diode, Magnetic inductance, etc.

Fbetter pursues the business philosophy of "customer as the center, striver as the foundation" to create a respected century-old enterprise. We focus on the development with our clients and workers in building a better future.
