Why Choose NP PACKAGING Manufacturing Pvt. Ltd.?

- **Commitment to Quality:** We prioritize quality above all else. Our rigorous quality control processes ensure that every corrugated box we produce meets the highest industry standards, providing you with reliable and durable packaging solutions.
- **Customization Expertise:** At NP Packaging Manufacturing, we understand that one size does not fit all. Our team specializes in tailoring packaging solutions to your unique needs. Whether you require custom dimensions, branding, or special features, we can deliver packaging that matches your vision .
- **Years of Experience:** With over two decades of experience in the industry, we have gained invaluable insights and expertise. Our professionals are well-equipped to navigate the complexities of various industries, delivering packaging solutions that align with your specific requirements .
- **Cutting-Edge Technology:** We invest in the latest technology and modern manufacturing processes to stay at the forefront of the packaging industry. Our state-of-the-art facilities ensure efficiency, precision, and consistency in every box we produce .
- **Sustainability Focus:** NP PACKAGING Manufacturing is committed to environmental responsibility. We offer eco-friendly packaging options and use sustainable materials whenever possible. By choosing us, you're supporting a greener future while benefiting from innovative packaging solutions .
- **Global Reach:** While we are based in North India, our reach extends far beyond. We serve both domestic and international markets, offering a global perspective on packaging solutions. No matter where you are, we can meet your packaging needs with ease and reliability.

Ready to elevate your packaging standards? Contact NP Packaging Manufacturing today and let's create tailored packaging solutions for your business's success.

OUR REMARKABLE KEY FEATURES

- **High-Quality Corrugated Boxes:** We take pride in manufacturing corrugated boxes of exceptional quality. Our commitment to using premium materials and stringent quality control processes ensures that our boxes are sturdy, reliable, and capable of protecting your products during transit and storage.
- **Versatility in Packaging Styles:** NP Packaging Manufacturing offers a wide variety of packaging styles to suit your specific needs. Whether you require Regular Slotted Containers (RSC), Die-Cut Boxes, or custom-designed packaging, we have the expertise to deliver the perfect solution.
- **Diverse Industry Catering:** Our packaging solutions cater to a diverse range of industries, including Electronics, FMCG (Fast-Moving Consumer Goods), Beverages, and Heavy-Duty Industries. Regardless of your sector, we have the knowledge and experience to provide packaging tailored to your industry's unique demands.
- **Domestic and International Reach:** We serve both domestic and international markets, providing you with packaging solutions that meet global standards. Whether you need packaging for local distribution or export, Keshoram Manufacturing has you covered.
- **Professional and Experienced Team:** Our success is driven by our dedicated team of highly experienced professionals. They are passionate about delivering packaging solutions that exceed your expectations. With their expertise, you can trust that your packaging needs are in capable hands.
- **Customized Solutions:** We understand that every business has unique packaging requirements. That's why we specialize in offering customized packaging solutions. Whether you need branding, special printing, or packaging with specific dimensions, we can tailor our products to align perfectly with your vision.
- **Efficient Manufacturing Processes:** At NP Packaging Manufacturing, efficiency is paramount. Our streamlined manufacturing processes not only ensure the highest quality but also result in timely delivery of your packaging orders, helping you meet your production schedules.
- **Logistics and Distribution Support:** We offer comprehensive logistics and distribution support. From bulk orders to just-in-time deliveries, our logistics team ensures that your packaging arrives where and when you need it, reducing inventory management hassles.

Ready to experience the NP Packaging Manufacturing difference? Reach out to us now and discover how we can meet your packaging requirements.

Whether you're a part of the Electronic, FMCG, Beverages, or Heavy-Duty Industries, we have the perfect packaging solutions for you. Let's work together to elevate your packaging standards.

OUR STRENGTHS

- **Strategic Location:** Our plant is strategically located in Plot No -K-353 & K-11, Kasna Industrial Area, Site-V Greater Noida, UP, Gautam Buddha Nagar, India, offering excellent connectivity and smooth material movement in a well-developed industrial area .
- **Modern Infrastructure:** Our infrastructure is designed and constructed by the renowned architect, ensuring top-notch quality and functionality.
- **Cutting-Edge Machinery:** We operate a high-speed 5 Ply BHS Automatic Corrugated Board Plant equipped with state-of-the-art technology.
- **Ample Space:** With a total area of 10,000 square meters and a covered area of 6,000 square meters, we have the space needed for efficient operations.
- **Advanced Printing/Slotting:** Our facility is equipped with high-speed printing and slotting machines, enabling precise and efficient production.
- **Impressive Capacity:** We boast a substantial production capacity of 6,000 metric tons per month, ensuring we can meet your packaging needs promptly and efficiently.
- **Reliable Power Supply:** To ensure uninterrupted production, we have a captive power generator with capacities of 750 Kva.
- **In-House Transportation:** We maintain our own transportation fleet, guaranteeing a seamless supply chain for our clients.
- **Quality Assurance:** Our well-maintained laboratory facilitates essential inspections, ensuring that every product leaving our facility meets the highest quality standards.

NP's specialization in corrugated rolls can be a valuable asset for businesses looking for effective packaging and protection solutions. The versatility of corrugated rolls makes them a crucial component in various industries, and having expertise in this area can lead to successful partnerships and satisfied customers.

OUR TOP CLASS MACHINERY

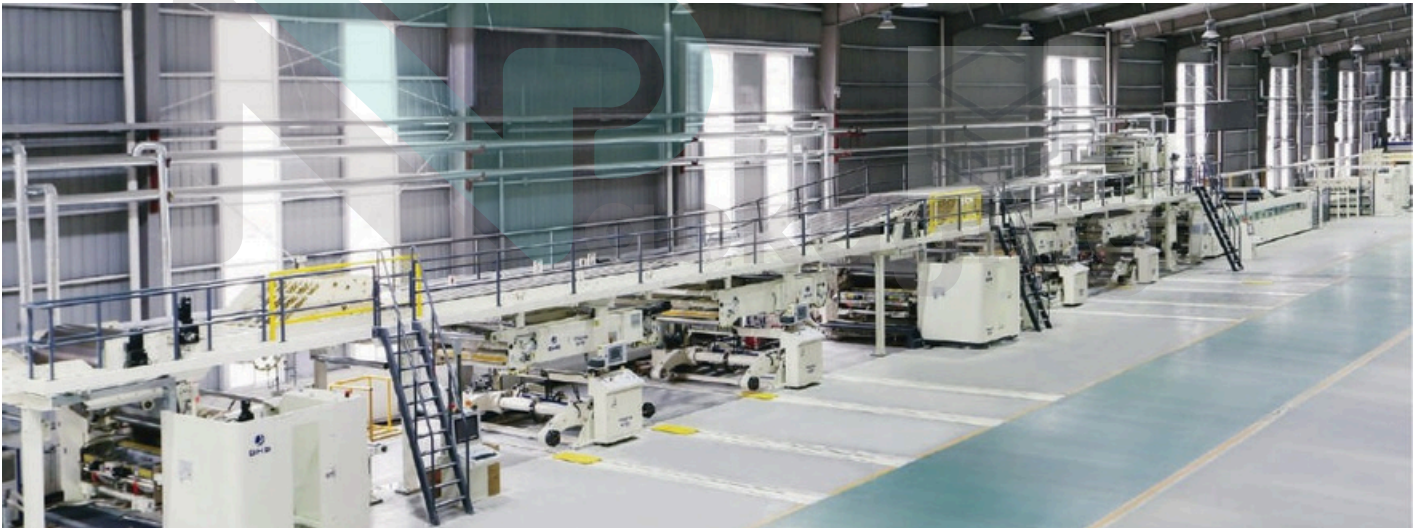

5-Ply BHS Automatic Board Making Machine

Impressive Deckle Size: Featuring a substantial deckle size of 2200 mm, this cutting-edge machine operates at an impressive speed of 230 meters per minute.

Flute Profile Precision: It offers precise control over flute profiles A, B, C, and NC cut-off to eliminate any size variations in the sheet, ensuring consistent and high-quality results.

User-Friendly Control: Equipped with a user-friendly touch screen computer control interface, the machine streamlines operations and enhances ease of use.

Efficient Stacking: The machine includes an online rotary system with an automatic stacker, optimizing the stacking process for improved efficiency.

Description	Spec
Max Speed	230 mtr/min
Deckle Size	2200 mm
Cut Length	4500 mm
Scoring	Male to Female, male to flat, Male to Male
Max Out	6
Flute type	B,C and A Flute

In our pursuit of excellence and unwavering commitment to customer satisfaction, we have strategically established a backup plant. This backup facility is equipped with advanced features and specifications, meticulously designed to ensure the uninterrupted supply of our products, even in the face of unforeseen challenges. This proactive measure underscores our dedication to maintaining seamless operations and consistently meeting the demands of our valued customers.

OUR TOP CLASS MACHINERY

● High-Speed Flexo Floder Gluer Printing Machine

Feeding System: Equipped with the Sun Automation lead edge feeder and a vacuum sheet cleaner, this machine ensures efficient and reliable sheet feeding.

Precision Printing: It features top printing capabilities with quick-set pull collars, roll-to-roll ink metering, digital registers, and automatic wash-up, ensuring precise and consistent print quality.

Versatile Slotting: The slotting section includes a pre-creaser and a single slotting shaft for versatile packaging design options.

Optional Rotary Die Cut Unit: This machine offers the option of a rotary die-cut unit with anvil trimming and a speed compensating system, enhancing its versatility for various packaging needs.

User-Friendly Control: Operated via a user-friendly touch screen computer control interface, this machine streamlines operations and facilitates ease of use.

Description	Spec
Max Speed	220 pcs/min
Max Feeding	Size (L*W) 1170* 2800 mm
Skip Feeding	Size (L*W) 1500*2800 mm
Min feeding	Size (L*W) 350*690 mm
Max Printing	Size (L*W) 1150*2750 mm
Max Die Cutting	Size (L*W) 1150*2750 mm
No of colour	4

OUR TOP CLASS MACHINERY

● Innovative Insun Online Pasting and Stitching Machine

Precision Feeding and Folding: This machine incorporates a belt-type feeding and folding unit, renowned for its accuracy and stabilization in the production process.

Impressive Speed: Operating at a remarkable speed of 85 cartons per minute, it ensures efficient and timely carton processing.

Quality Sheet Handling: High-quality belts are employed to convey and fold sheets, guaranteeing smooth and reliable sheet handling.

Stitching Excellence: The stitching head operates at an impressive speed of 900 points per minute, facilitating rapid and precise stitching.

Exquisite Correction Feature: It includes a function for meticulous correction, ensuring the highest quality in the finished product.

Efficient Bundling: To complete the packaging process, this machine offers the capability to bundle stitched boxes securely using straps

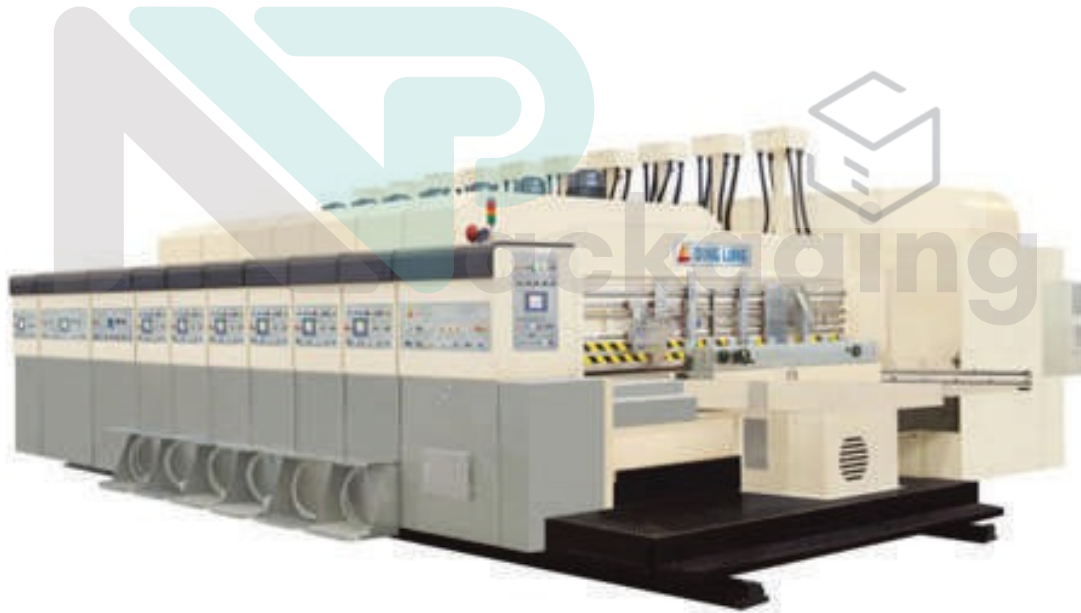

Description	Spec
Max Speed	180 mtr/min
Max Feeding	Size (L*W) 1200*2900 mm
Min Feeding	Size (L*W) 300 *900 mm
Stitching Speed	85 pcs/minute
Sheet Board Thickness	3~10 mm

OUR TOP CLASS MACHINERY

● Printing Slotting Die-cutting Machine

Having a Printing Slotting Die-cutting Machine enables Keshoram to offer a wide range of customized packaging solutions to their customers while maintaining high-quality standards and production efficiency. It's a testament to their commitment to meeting diverse packaging needs and providing top-notch products. A Printing Slotting Die-cutting Machine is a specialized piece of equipment used in the packaging industry, particularly in the production of corrugated cardboard boxes. This machine combines several essential functions in one, making it integral to the manufacturing process. Our machines include quality control features to ensure that each box meets the desired standards, including accurate dimensions, printing quality, and die-cutting precision.

Description	Spec
Max. Machine Speed	(R/min)
Max. Feeding	Size (L*W) 1200 x 2800
Skip Feeding	Size (L*W) 1500 x 2800
Max. Printing Area	Area (L*W) 1150 x 2750
Min. Sheet Board Thickness	3~10 mm
Standard Printing Plate Thickness	7.2
No of Colour	2

OUR TOP CLASS MACHINERY

● Automatic Die-cutting Machine:

We have Automatic Die-cutting Machine in our plant. Automatic Die-cutting Machines are valuable assets in the packaging and printing industry, enabling efficient and precise cutting of various materials for packaging and other applications. Having such machinery can enhance production capabilities and product quality, making Keshoram well-equipped to meet the needs of their customers.

Automatic Die-cutting Machines streamline the cutting process, allowing for faster production and reduced manual labor. our machines ensure precise and consistent cuts, meeting high-quality standards for packaging and printing. our machines can handle a variety of materials, making them adaptable to different applications and customer requirements.

Description	Spec
Max Speed	5000 sheet/hr
Max Feeding	Size (L*W) 1650*1200 mm
Max Cut	Size (L*W) 1630*1180 mm
Min. Feeding	Size (L*W) 650*520 mm
Sheet Board Thickness	2~9 mm

OUR TOP CLASS MACHINERY

NP PACKAGING have the **FFG 924 NT RS** machine, which has several notable features and capabilities.

- **High Speed:** The FFG 924 NT RS is a fast machine, capable of producing 20,000 boxes per hour. This speed is a significant advantage for efficient production processes.

- **Multifold Function:** The machine is equipped with a Multifold function that allows for further productivity enhancements. This feature likely enables it to perform various folding and creasing tasks efficiently.

- **Quality and Precision:** The commitment to quality and precision is highlighted, indicating that the machine's components and processes are designed and manufactured with a focus on maintaining consistently high-quality output.

- **Rapidest and Easy Drive:** Mentioned Rapidest and Easy Drive are likely additional features or technologies that contribute to the machine's efficiency and ease of use. These features may facilitate quick setup and operation, minimizing downtime during order changeovers. FFG 924 NT RS machine at Keshoram combines speed, quality, and user-friendly features to deliver efficient and high-quality production of corrugated boxes. This level of technology and innovation can be a significant asset in meeting customer demands and maintaining a competitive edge in the packaging industry.

Description	Spec
Max Speed	330 pcs/min

Anilox Spec	250 Lpi
Ink Volume	6.

OUR PRODUCTS

Corrugated Packaging Boxes & Roll :

Packaging carton boxes are the backbone of safe and efficient product transportation and storage. These versatile boxes come in various sizes and designs, making them suitable for a wide range of applications. Whether you need to protect fragile items during shipping or organize products on store shelves, packaging carton boxes offer the ideal solution. Their durability, ease of customization, and ability to showcase branding and product information make them an essential component of modern packaging strategies, ensuring your products arrive in excellent condition and leave a lasting impression on your customers.

NP's specialization in corrugated rolls can be a valuable asset for businesses looking for effective packaging and protection solutions. The versatility of corrugated rolls makes them a crucial component in various industries, and having expertise in this area can lead to successful partnerships and satisfied customers.

Corrugated boxes are the foundation of the packaging industry, known for their exceptional strength and versatility. Comprising multiple layers of corrugated cardboard, these boxes provide outstanding protection for a variety of items.

Corrugated Sheets:

Corrugated sheets are the building blocks of corrugated packaging solutions. These flat, layered sheets of corrugated material serve as the raw material for crafting customized boxes and packaging solutions tailored to specific needs. Corrugated sheets are prized for their strength, durability, and versatility in design. They provide the foundation for creating boxes of various sizes, styles, and configurations to suit the requirements of diverse industries. Whether used as protective inserts, dividers, or as the main component in packaging design, corrugated sheets offer a robust and sustainable solution for ensuring the safety and integrity of your products during transit and storage.

OUR JOURNEY

Our Journey of bringing Excellence in Corrugated Packaging

Since 1999, we have been actively engaged in the market, collaborating closely with NP Packaging. Our latest milestone was the inauguration of our new plant in March 2023, proudly named NP Packaging. Our journey has been a testament to our consistent commitment to quality and innovation in the world of corrugated packaging. We embarked on this path as manufacturers of high-quality and durable corrugated boxes, initially operating from a small manual plant. Our journey has been marked by significant milestones, we took a giant leap forward by establishing an automatic plant. This expansion allowed us to not only meet but exceed the growing demand for our products.

Over the years, our dedication to delivering exceptional packaging solutions has earned us recognition as a well-known name in North India. We take pride in our ability to manufacture a diverse array of corrugated boxes, showcasing our proficiency in adapting to the unique needs of industries ranging from Electronics, FMCG, Beverages to Heavy-Duty sectors. Our commitment to quality has helped us gain a foothold in both domestic and international markets, catering to clients worldwide.

Guided by the visionary leadership of our mentor, Mr. Vikas Goyal, we've undergone a remarkable transformation. What began as a small unit has evolved into a professionally managed organization. At its core, our journey is a collective effort, steered by a team of highly experienced professionals. Their unwavering commitment to realizing our mentor's vision—to become a global leader in the packaging industry—fuels our drive to deliver high-quality, customized products that precisely meet the diverse needs of our valued clients.

Our journey is a testament to our continuous pursuit of excellence, innovation, and the relentless pursuit of customer satisfaction in the dynamic world of corrugated packaging.

A Message from the Managing Director

I want to thank our valued customers for always supporting us. Your trust in our products inspires us to provide the best services and make sure you get the most for your money.

Our goal is to turn our corrugation factory into a packaging unit that can meet all your needs. We aim to offer strong, efficient, reliable, and cost-effective products that match the best in the industry.

Our main focus is making sure you, our customers, are happy. This means understanding what you need, making high-quality products, and giving you good service even after you've made a purchase. This commitment is at the heart of our Quality Policy, and we follow the strict standards of ISO 9001 to achieve it.

We know that our employees are our strength, and we'll keep working together to achieve our goals.

I want to thank our customers for their support, our employees for their hard work, and all our well-wishers for helping our organization grow.

Sincerely,

MR. NIRANJAN KUMAR
(MANAGING DIRECTOR)

TESTIMONIAL

Testimonial 1 - Packaging Carton Boxes

I've been using NP Packaging Manufacturing's carton boxes for my online business for years now, and I can't recommend them enough. The durability and quality of these boxes have helped ensure that my products reach my customers in perfect condition every time. Plus, their customization options have allowed me to create a unique and professional brand image.

Testimonial 2 - Corrugated Boxes

NP Packaging's corrugated boxes have been a game-changer for our company's shipping needs. We deal with heavy industrial equipment, and these boxes have consistently proven their strength and reliability. It's reassuring to know that our products are well-protected during transit.

Testimonial 3 - Corrugated Sheets

As a designer, I often require versatile and sturdy materials for my projects. NP Packaging Manufacturing's corrugated sheets have been my go-to choice. They're not only strong and durable but also easy to work with, allowing me to bring my creative ideas to life.

Testimonial 4 - Packaging Carton Boxes

We've been partnering with NP Packaging Manufacturing for our retail packaging needs, and the impact on our brand image has been significant. The high-quality carton boxes they provide have not only safeguarded our products but have also added a professional touch to our packaging. Our customers love it.

Testimonial 5 - Corrugated Rolls

Our business has grown a lot, and it's partly because of the great carton boxes from NP Packaging Manufacturing. They're strong, easy to use, and we can make them look just how we want. With these boxes, our products always get to our customers safe and sound.
