Customer Service with Satisfaction

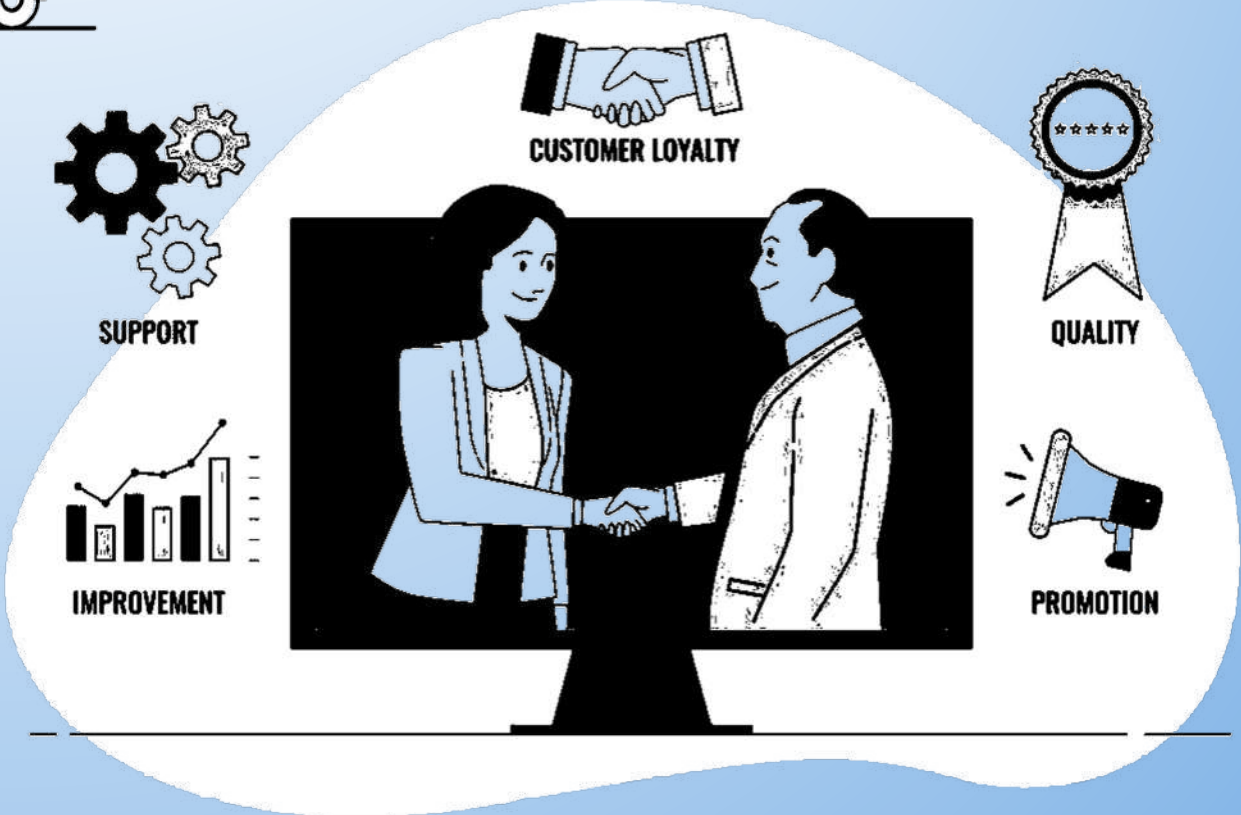

Premium Quality

With Our Distribution Model we are resolving supply chain imbalances and keeping businesses on track. Whether solving for fluctuating pricing or lengthy lead times,

For us Customer Satisfaction is Paramount, thus we have defined our customer interaction in a way that our customers will get answers to their every query quickly and with details since very beginning of their interaction with our representatives, this makes their experience Happy and Healthy.

OUR MISSION

We strives to nurture and grow a diverse and inclusive environment that encourages an open exchange of ideas, where each individual is valued and enabled to reach his or her potential. We firmly believe that embracing and learning from individual differences is a strength that will give DesiVikreta a sustained, competitive advantage with customers and suppliers, and enable innovation for DesiVikreta's continued success.

OUR VISION

We distinguish ourselves by providing specialized services and expertise across the product life cycle. We seek to provide our suppliers and customers with solutions designed to help them produce products that are inherently more sustainable.

We endeavour to offer a constant stream of innovative products to help our clients increase profitability, improve productivity and grow their business.

Our Values are the fundamental beliefs and principles that guide our organization. These values shape our company's culture and promote cohesion and cooperation among our team.

IN-HOUSE QUALITY LAB

We have a Certified Quality Inspectors & Engineers as testing and inspection process requires careful attention to detail and extensive industry knowledge.

PACKAGE INSPECTION

Once package/ shipment received at our warehouse a thorough inspection of boxes is done.

VISUAL INSPECTION

Our Visual Inspection test involves inspecting of electronic components under a microscope to determine if a component or product has been altered from its original state. During this process a device may show signs of non conformance or inconsistencies that help determine if a component or product has been used or if a device is new and original. This process is performed by our in-house quality team.

DIGITAL PHOTOGRAPHY

The Inspection Executive Reviews & Photographs the Packaging, Part Number, Serial Number, Quantity, COO, Lot Codes, Date Codes using our High Definition & Latest Camera Technology.

REQUIREMENT VERIFICATION

This involves checking the product/component (s) quantity, specification and certifications referring the PO.

APPROVAL

Final step is Approval, at this stage if the part/component (s) pass all inspection steps and Quality Tests then it is sent for dispatch process marked/stamped as Approved by Quality Inspectors.

DOCUMENT VERIFICATION

After package inspection the assigned Inspection Executive properly check the documentation like Invoice, traceability, COC, and all other pre-listed and informed documentation mentioned for the Shipment received.

MEASUREMENT

In this step product/component (s) dimensions are verified referring product technical data sheets.

LABEL VERIFICATION

In this step inspection of Label is done checking the product/component's - Markings, Leads, Part's Top, Bottom & Side, Acetone Testing, Marking Permanency, Scrape, Dimensions, Data Sheet, Magnification, History/OS

LAB TESTING

LAB TESTING of products/component (s) is done in the Quality Lab, performing following Tests - Keyence Scope 2000x, X-ray, XRF, Heated Chemical Test, Chemical Decap, Solderability

OUR INSPECTION & QUALITY PROCESS REFLECTS OUR SYSTEMS-BASED APPROACH TO QUALITY

We inspect, measure, verify, and test electronic components from the outer packaging inward to confirm that they meet the highest standards. This process is thoroughly documented in DesiVikreta's operational platform. Any team member around the world can access this information, ensuring operational consistency and unwavering customer support.

Diligence, processes and attention to detail are at the core of our business. Every DesiVikreta order goes through a comprehensive quality control process in one of our In- House Quality Lab. As a result, DesiVikreta ensures the highest quality testing services and complete transparency, with a detailed quality inspection report delivered with every order.
